

MOHAMMED FAVAS KS

Full-Stack Developer | AI/ML Developer

Thrissur, Kerala, India | +91 7736316028 | fv8favas@gmail.com

LinkedIn: linkedin.com/in/favasfv8 | GitHub: github.com/favas-fv8 | Portfolio: favas-fv8.github.io/ai_portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer and AI/ML Developer focused on building practical, AI-powered web applications. Experienced with React, TypeScript, Python, Django, Django REST Framework, PostgreSQL, Machine Learning and Generative AI. Hands-on experience across frontend development, REST APIs, authentication, databases, AI/ML integration, testing and deployment.

TECHNICAL SKILLS

Programming Languages: Python, C, Java

Frontend: React, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Bootstrap, Vite, React Router, Redux Toolkit, TanStack Query, Three.js, Framer Motion

Backend: Django, Django REST Framework, JWT, Celery, Redis, Gunicorn

AI / ML: TensorFlow, Keras, Scikit-learn, NumPy, Pandas, OpenCV, SciPy, Matplotlib, Google Gemini

Database: MySQL, PostgreSQL, SQLite

DevOps / Tools: Git, Docker, GitHub, GitHub Actions, Render, Vercel

Other: Firebase, Axios, Playwright, Pytest, Communication, Creativity, Team Collaboration, Problem Solving, Critical Thinking, Leadership

EXPERIENCE

Full Stack Web Development Intern — IntrnForte

2025–2026

- Technologies: HTML5, CSS3, JavaScript, React, Bootstrap, Python, SQL, Django
- Worked across frontend, backend, REST APIs, authentication and database integration; developed/worked on E-Commerce Platform and AI Job Portal.
- Continued independently enhancing projects after the internship with additional features and professional UI/UX improvements.

AI with ChatGPT Intern — IntrnForte

2025–2026

- Technologies: Python, TensorFlow, Keras, Scikit-learn, Machine Learning, CNN
- Worked on Machine Learning, Deep Learning, data processing and model development; developed AI Insurance Purchase Prediction and Breast Cancer Histology Image Classification.
- Continued independently enhancing projects after training with additional features and application improvements.

PROJECTS

AI Portfolio — Personal Portfolio

Stack: React 19, TypeScript, Vite, Tailwind CSS, Framer Motion, GSAP, Three.js, React Three Fiber, React Three Drei, Postprocessing, Lenis, React Router, GitHub Actions, GitHub Pages

Key Features: Interactive 3D UI, smooth scrolling, animations, AI portfolio assistant, command palette, responsive design, accessibility
Deployed: GitHub Pages

Pachooos AI — Full-Stack E-Commerce Platform

Stack: React, TypeScript, Vite, Tailwind CSS, Redux Toolkit, TanStack Query, React Router, Axios, Framer Motion, Django, Django REST Framework, JWT/SimpleJWT, Celery, Redis, PostgreSQL, Firebase Admin, OpenAI, Cashfree, Google Maps, S3/Cloudinary, Docker, Nginx, Gunicorn, GitHub Actions, Vercel, Argon2, AES-GCM/cryptography, django-filter, drf-spectacular, WhiteNoise, Pillow

Key Features: Authentication & RBAC, product/inventory management, cart & orders, payments, wallet & debt management, admin dashboard, notifications

PROJECTS (CONTINUED)

AI Insurance — Full-Stack ML Application

Stack: Python, Django, Django REST Framework, SimpleJWT, React, React Router, Axios, PostgreSQL, Scikit-learn, Pandas, NumPy, joblib, Gunicorn, WhiteNoise, Render, Vercel, django-cors-headers, dj-database-url

Key Features: ML predictions, multi-model comparison, best-model selection, performance metrics, prediction history, dataset API, JWT authentication

Deployed: Vercel + Render

AI Job Portal — AI-Powered Recruitment Platform

Stack: React, Vite, React Router, Axios, Django, Django REST Framework, SimpleJWT, PostgreSQL, Google Gemini/Google GenAI, PyPDF2, python-docx, Gunicorn, WhiteNoise, django-filter, Pillow, django-cors-headers

Key Features: Role-based dashboards, job management, resume processing, AI resume analysis, job matching, recommendations, skill-gap analysis, application tracking

AI-WildEye — Wildlife Image Recognition

Stack: Python, Django, TensorFlow CPU, NumPy, Pandas, SciPy, OpenCV, Pillow, Matplotlib, Requests, playsound

Key Features: Image/video analysis, live-camera analysis, ML recognition, model performance dashboard, admin/staff workflows, history, email alerts

AI Breast Cancer — Histopathology Image Classification

Stack: Python, Django, Django REST Framework, React, Vite, React Router, PostgreSQL, TensorFlow, Keras, CancerNet CNN, NumPy, Pillow

Key Features: Histopathology image analysis, CancerNet CNN inference, confidence scoring, prediction history, model performance dashboard, training metrics

No-Due — College Clearance Platform

Stack: React, Vite, React Router, Axios, jsPDF, jsPDF AutoTable, Django 6, Django REST Framework, SimpleJWT, SQLite, Pillow, python-decouple, django-cors-headers

Key Features: Role-based access, 11-section clearance workflow, automatic request routing, document uploads, verification/approval, audit history, status tracking, certificate generation

EDUCATION

B.Tech – Computer Science and Engineering — IHRD College of Engineering Karunagappally, Kollam	2022–2026
Higher Secondary Education — Hira English School, Kaipamangalam	2020–2022
Secondary Education — Hira English School, Kaipamangalam	2020

CERTIFICATIONS

• Full Stack Web Development Internship — IntrnForte	2025–2026
• AI with ChatGPT Internship — IntrnForte	2025–2026
• EA Software Engineering — EA	2025
• Deloitte Data Analytics — Deloitte	2025
• AWS Solutions Architecture — Amazon Web Services	2025
• AITHON AI-Based Hackathon — 2nd Place — AITHON	2022
• AI Tools Workshop — BE10X	2025
• Data Analyst — Novitech	2025

LANGUAGES

English, Tamil, Malayalam
